in spain between 1936 1945 the franco regime carried out one europe's more brutal but less remembered programs of mass repression many were murdered by the regime's death squads and in some areas francoists also subjected up to 15 of the population to summary military trials here many suffered the death sentence or jail terms up to thirty years although historians have recognised the staggering scale of the trials they have tended to overlook the mass participation that underpinned them in contrast to the discussion in other european countries little attention has been paid to the wide scale collusion in the killings and incarcerations in spain exploring mass complicity in the trials of hundreds of thousands of defeated republicans following the end of the spanish civil war the francoist military trials probes local francoists accusations whereby victims were selected for prosecution in military courts it also shows how insubstantial and hostile testimony formed the bedrock of investigations secured convictions and shaped the harsh sentencing practices of franco's military judges using civil court records it also documents how grassroots francoists continued harassing republicans for many years

after they emerged from prison challenging the popularly prevalent view that the franco regime imposed a police state upon a passive spanish society the evidence anderson uncovers here illustrates that local state officials and members of the regime s support base together forged a powerful repressive system that allowed them to wage war on elements of their own society to a greater extent than perhaps even the nazis managed against their own population

josep pla is catalonia s foremost twentieth century prose writer he witnessed and wrote about some of the twentieth century s most notable events including the spanish civil war and the foundation of the state of israel due to a lack of translations of his work he is only now being discovered by the international audience and will soon join the ranks of major realist writers in world literature in josep pla joan ramon resina teases out the writer s deep seated intellectual concerns and challenges the assumption of pla as an anti intellectual resina condenses pla s forty seven volumes of work including travel books narrative fiction and history into eleven thematic units including time memory perception life religion metaphysics utopia and self delusion resina acutely explores the writer s authorial gaze and invites the reader to see the world through the eyes of one of the most underappreciated observers and writers of the twentieth century
